

The Department of Transportation estimates that **75% of delays are caused by weather**. You can avoid those weather delays by using [KnowDelay](#), your on-time partner.

Twice a week, the [KnowDelay](#) team of experts and pilots synthesizes complex sets of data and reports to provide you a brief summary of potential flight delays. Here are the highlights from today's Delay Outlook:

- Generally good weather across the **country** will result in few delays.
- High winds across the **Midwest** and **Ohio Valley** on Monday will result in periodic delays.
- High winds across the **Northeast** Monday through Wednesday will result in periodic delays
- Rain showers in the **Southwest** on Monday and across the **Southeast** on Wednesday will result in periodic delays.

Visit the [KnowDelay](#) website to see exactly what airports will be impacted, and which ones will not. [KnowDelay](#) can also monitor your flights so you'll be ready for any potential delay.

With KnowDelay, **No surprise. KnowDelay.**
