## Delays midweek

Here's today's Flight Delay Forecast, valid through Wednesday, March 5th:

- Weather system developing on the **West Coast** will yield few delays early in the week, but will intensify as the week progresses
- As the system moves east, some hub airports in the **Midwest** will see occasional delays on Tuesday
- Hub airports along the **East Coast** will be impacted on Wednesday, as rain and high winds sweep across the area

The Department of Transportation estimates that 75% of flight delays are caused by weather. Use **KnowDelay** to see exactly what airports will be impacted, and which ones will not. KnowDelay can monitor your flights so you'll be ready for any potential delay.

**With KnowDelay, No surprise. KnowDelay.**
