Delays continue

Here's today's Flight Delay Forecast, valid through Wednesday, April 2nd:

- The delays hammering the **Midwest** right now (all predicted by KnowDelay, at least five days ago!) will continue and move across the **East Coast** tomorrow
- Periodic delays across the **Midwest** on Tuesday into Wednesday
- Occasional delays across the **West Coast** through Wednesday

The Department of Transportation estimates that 75% of flight delays are caused by weather. Use **KnowDelay** to see exactly what airports will be impacted, and which ones will not. KnowDelay can monitor your flights so you'll be ready for any potential delay.
