Delays on the horizon...

...and not just at Newark! Yes, Newark has been in the news lately as staffing and a closed runway impact that airport's ability to accept traffic. But just like a closed runway, weather can severely restrict an airport's ability to accept aircraft. With that in mind, here's our Flight Delay Forecast valid through Wednesday, May 7th.

- Afternoon weather-related delays tomorrow and Tuesday across many airports in the **Central States** and **East Coast**, from north to south
- A quieter day on Wednesday with few weather-related delays

The Department of Transportation estimates that 75% of flight delays are caused by weather. Use **KnowDelay** to see exactly what airports will be impacted, and which ones will not. KnowDelay can monitor your flights so you'll be ready for any potential delay.

With KnowDelay, No surprise. KnowDelay.
